

# OUR RESEARCH PLANNER

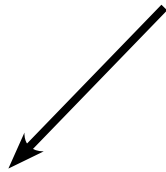

**Name of our Group:**

**People in our Group:**

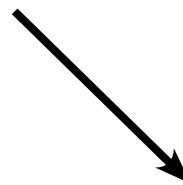

**Our Research Area/Question:**

**Our BIG BIG Question:**

**Our BIG Question: What we want to find out:**

**Things we  
already know:**

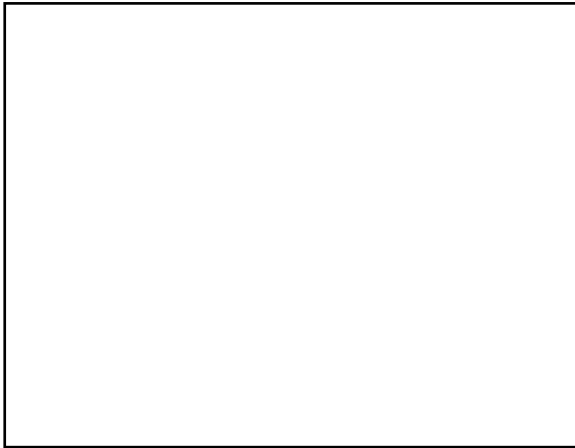

**Things we  
don't know:**

*Now go to the next page ...*

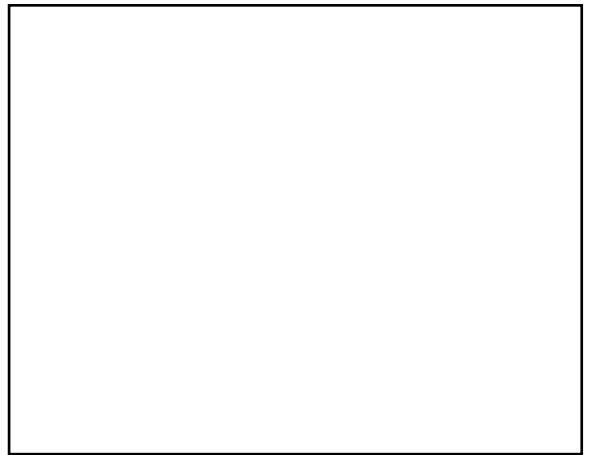

# RESEARCH APPROACHES:

## A. Depth: finding out what is already known

What we want to find out:

How we will do this:

## B. Breadth: finding out what other people think

What we want to find out:

How we will do this:

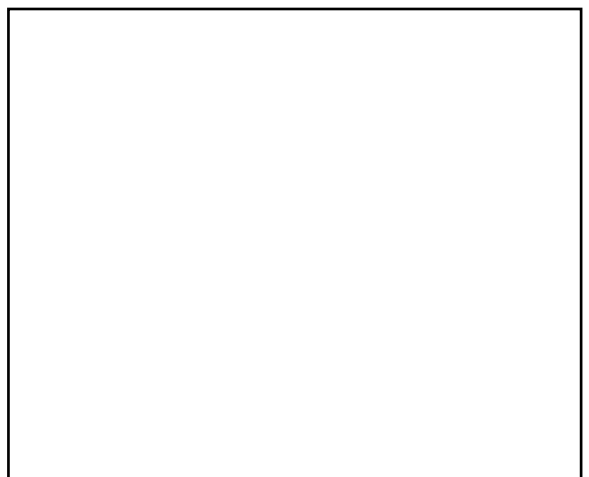

## C. Background: finding out what is already happening

What we want to find out:

How we will do this:

*Now go to the next page ...*

**Who knows about this? (*Who do we need to ask?*)**

**How will we find the answer?**

*(Methods: interview, survey, measure, observe etc)*

**How many people will we ask/observe/measure? Who?**

**What actual questions will we ask?**

**How will we record results? Who will do this?**

*Now go to the next page ...*

**ORGANISATION:**

**When will we do this? (*Timing and time-line: see page 6*)**

**Whose permission do we need?**

**What materials will we need (*see p 7*)?**

**What support do we need (*see p 7*)?**

**What else do we need to think about?**

# Research steps (in order):

<b>Step:</b>	<b>Who will do it?</b>	<b>When? By when?</b>	<b>check</b>
